

RABIES/RFFIT/FAVN Laboratory
Kansas State Veterinary Diagnostic Laboratory
2005 Research Park Circle
Kansas State University
Manhattan, KS 66502

Subject: Quality Assurance

Due to the fact the Rabies (RFFIT/FAVN) Laboratory tests human and animals, the Rabies Laboratory Quality Assurance Program is in compliance with regulations set forth by CLIA (Clinical Laboratory Improvement Act, 1988). The Rabies laboratory always maintains client confidentiality during the testing and billing process. The laboratory has current certifications with CLIA, New York State Department of Health, California, Maryland, Pennsylvania and the American Association of Veterinary Laboratory Diagnosticians. I have enclosed a copy of the CLIA license for your files. All other certifications are available upon request.

If you have any further questions in regards to this matter, please call (785)-532-4483 or email rabies@vet.k-state.edu.

Sincerely,

Cammen Lewis
Quality Manager
Rabies Laboratory
