¹ The pesticide product's EPA registration number is used to access the product label in PPLS. The numbers appearing before the dash in the EPA registration number are referred to as the company number. Type the company number in the first box appearing on the PPLS website. The numbers appearing after the dash are referred to as the product number. Type the product number in the second box appearing on the PPLS website. Press "search". A list of EPA approved labels will appear in chronological order, with the most recent label appearing first. Click on the most recent date to obtain the most recent label.

² See end of table for manufacturer address and telephone number

³ Products listed for use against avian influenza were not generated from the NPIRS database. This list originated with EPA's "Registered Antimicrobial Products with Label Claims for Avian (Bird) Flu Disinfectants" dated July 13, 2007, located at: http://www.epa.gov/pesticides/factsheets/avian_flu_products.htm.
